“Jasko has always been a reliable and cost effective carrier. They will tell you before they book the load if they can or cannot make the delivery on time and his rates are very competitive within the market. The addition of satellite tracking and not to mention brand new equipment puts him atop the transportation industry. If you want to work with a very organized and reliable carrier Jasko Enterprises is who to call. Thanks for all your business Jasko; we couldn't do it without your partnership.”

“I have been doing business with Jasko Enterprises, Inc. since February of 2008. I consider them to be one of my primary carriers. I am most impressed with their owner, Jasmin Maljanovic. He continuously works to improve his company's performance and has just recently upgraded his equipment, utilizing the most recent technology in trailer - temperature monitoring. I strongly recommend Jasko Enterprises to any shipper needing a reliable carrier for temperature controlled, frozen and dry products.”
